

We benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. We willingly pay for these services and it should not be up to the National Association of Broadcasters to dictate what we are permitted to hear while listening to a service we pay for. Please reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that we demand and deserve.

We are very please with XM Satellite Radio and the quality and variety of programs and channels we are given is valuable to us.
